

How To Download And Use The Liberty Link Software

What is Liberty Link and why do I need it?

Liberty Link, by Softlink International, is a mobile App that gives you the ability to:

- Search for available library resources
- Check your alert messages for overdues or holds
- View library information such as location and opening hours
- Scan ISBNs or barcodes to automatically retrieve resources from the system
- View the library's latest resources...

The Liberty Link app provides Android and iOS phone users 24/7 access to the information they need.

Let's start in Three Easy Steps!

Step 1 – Installation

On your mobile phone or device, download and install the App from the store, depending on the type of your device.

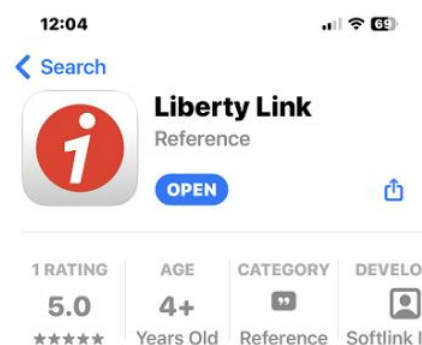

[Apple](#) iPhones

[Android](#) Phones

Search for **Liberty Link** and follow through the installation process.

Step 2 – First time setup

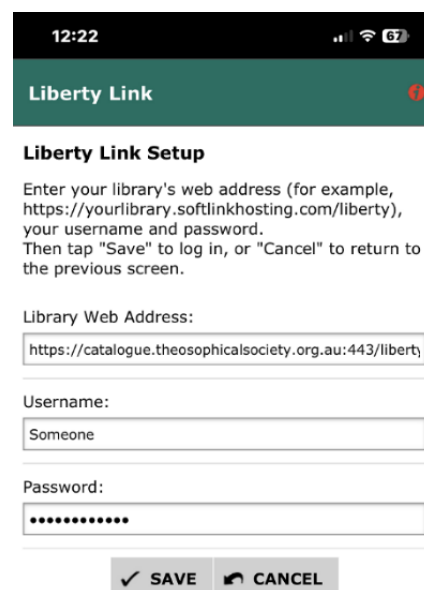

Connect to **SETUP** on the bottom tab and add your existing credentials.

This part is important, and please double check correct spelling!

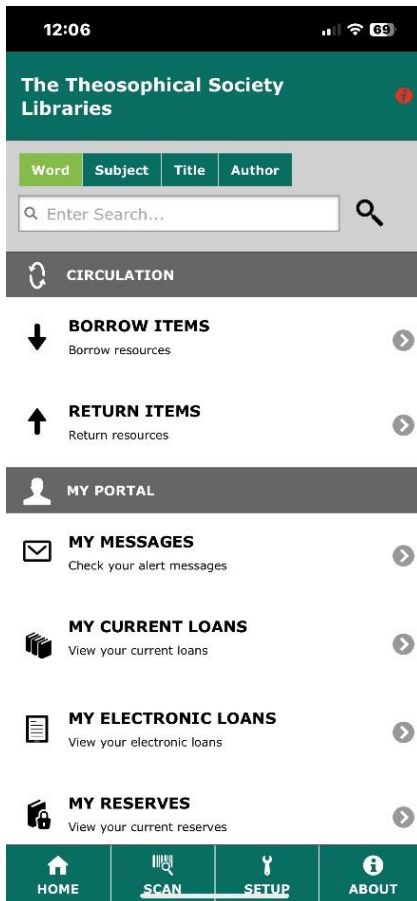

- Library Web Address:

<https://catalogue.theosophicalsociety.org.au:443/liberty3>

- Username: eg **hpblavatsky@gmail.com**
- Password: **<your library password>**

Step 3 — Let the fun begin: Start using the features!

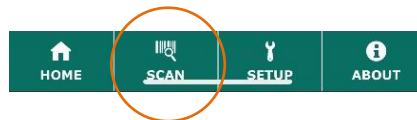

Your Theosophical Library connects you to information that helps you succeed in your research of theosophical resources, or provide a simple enjoyment to satisfy your general interest in learning.

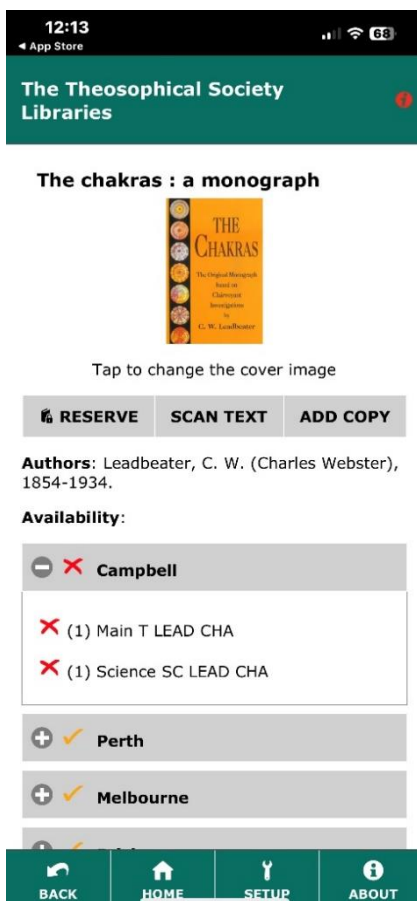

Scroll down through the many options available on the clean and modern interface.

Get familiar with the search functions and results.

Full Text Search provides ability to search all the fields within the catalog, including any information within the electronic resources such as Word or PDF documents.

Scan barcodes for more information

Few more tidbits.

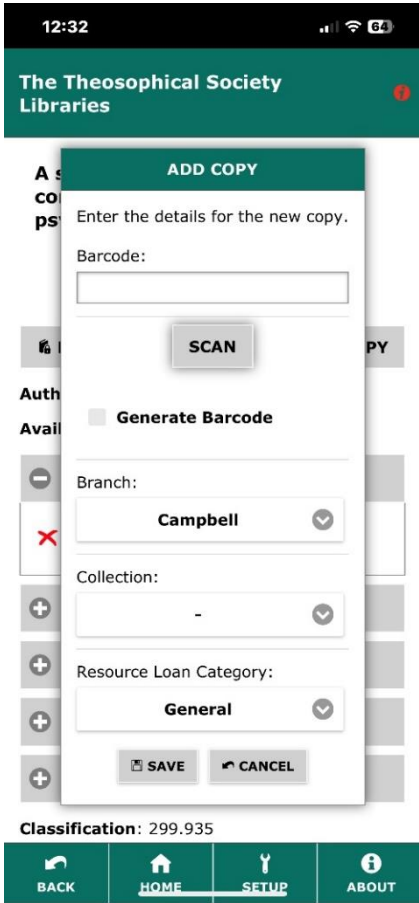

Some more screenshots are provided for you to view and consider the wide scale of options and capabilities of the app. Perhaps a picture paints a thousand words.

The visual prompts are intuitive and do not require additional explanation.

Simple to use, perhaps comparable to a self-serve checkout just like in a supermarket!

(X means book is not for loan)

Scan a barcode inside the TS Library book....
